- ✓ Made to order; supplied ready to use

Architectural Wall Coatings

PRIMERS, BINDERS & GLAZES

Architectural Wall Coatings

Primers

Primers form part of our decorative coating systems. They are designed to provide a tough bonding surface for the heavy textured (special) decorative products which are thicker and heavier than the normal paints

Rockshield primers are specially formulated to meet specified performance requirements. Primers are packaged in 4Litre and 20Litre Jerry cans.

Architectural Wall Coatings

Binders

- ✓ Rockshield Binders are specially formulated polymeric products that serve as bases for our range of stone decorative products.
- ✓ Rockshield Binders are packaged in 1 Liter, 4Liter and 20Liter containers.
- ✓ For best results, finish with Rockshield Standard Glaze

Architectural Wall Coatings

Glazes

- ✓ They are clear or tinted products based on user (designer) requirements
- ✓ Glazes are packaged in 1Litre, 4Litre and 20 Liter Jerry cans.
